1.1 Südzucker Group: Overview

- One of the most leading food industry companies
- Segments sugar, special products, CropEnergies and fruit
- In the traditional sugar business, the group is Europe’s number one supplier of sugar products
- About 19,200 employees*
- About € 6.8 billion annual revenues
- More than 100 production locations world-wide
- About 36 million tonnes of agricultural raw materials processed
- Sugar production: 4.7 million tonnes
- Fiscal year: 1 March to 28/29 February
- Member of the German SDAX®
- Formation 1926
- Legal form: stock corporation under German law

* Based on full-time equivalents.
1.2 Südzucker Group: Segment overview

Sugar is our core business, yet Südzucker is more than sugar ...

**Sugar segment**
- 28 sugar factories and 2 refineries in Austria, Belgium, Bosnia, the Czech Republic, France, Germany, Hungary, Moldova, Poland, Romania, Slovakia

**Special products segment**
- BENEÖ Freiberger PortionPack Europe Starch
- 28 production sites worldwide

**CropEnergies segment**
- Bioethanol
  - 4 production sites in Belgium, France, Germany and Great Britain

**Fruit segment**
- Fruit preparations
- Fruit Juice concentrates
- 43 production sites worldwide
1.3 Our strengths

- **Diversified** corporate structure, product portfolio, markets and employees.

- **Competent** large-scale processing of agricultural materials in various business sectors. Our expertise covers the entire value added chain – from our suppliers to our customers – including the associated logistics and use of our products. Our proficiency is based on our highly skilled, motivated employees, who embody our know-how, our experience and our innovation capability in production, distribution, sales and marketing and logistics.

- **Practice sustainability**, especially by using resource-friendly production methods and fully utilizing agricultural materials to the greatest extent possible.
1.4 Corporate strategy (I)

Our aim is to grow profitably and sustainably boost shareholder value without compromising our ecological and social responsibilities.

Adjustment of our sugar segment strategy

Given the continuing difficult market environment with production volumes increasing around the world, together with extremely low prices, we want to shift our focus in future to cost-effective delivery to customers throughout Europe and continued to grow our market share in this region.

In other words, exporting noteworthy sugar volumes to the rest of the world from our European facilities will in future be of secondary importance to Südzucker. This also means we have to adjust the company’s production and administrative organizations.

Accordingly, we plan to close five factories in order to reduce our sugar production capacities by 700,000 tonnes and at the same time fully load the remaining plants. We will intensify other cost cutting measures along the entire value chain.
1.4 Corporate strategy (II)

Our group strategy continues to apply for all segments:

- **We focus on global megatrends**
  Expanding world population and rising incomes continuously increase demand for food and animal feed, as well as renewable energy. Trends toward alternative and functional food ingredients as well as convenience products are also strengthening. We continue to align our business segments with these trends.

- **We aim to grow market share in our business sectors**
  We want to have a leading position and/or expand in our target market sectors. Our aim here is to be number one or a strong number two.

- **We focus on our core competencies**
  Our core competencies are large-scale processing of agricultural raw materials and the associated logistics. Our aim is to continually advance our expertise to make completely use of all product flows and to increase value creation by engaging in intensive research.
1.4 Corporate strategy (III)

- **Our portfolio is diversified**
  We maintain a reasonable risk exposure by diversifying our portfolio of products and services and spreading it out across a wide range of geographic locations. This will continue to be our approach.

- **We take advantage of synergies**
  We aim to align our growth activities with our core competences so that we can tap synergies along the entire value chain. Here we focus especially on enhancing multipurpose sites, where we produce products for different segments.

- **Solid financing strategy**
  We have a solid financing strategy. Our aim is to sustainably strengthen our ability to generate cash flow, nurture a strong relationship with our shareholders. The sound investment-grade rating ensures the access to international capital markets and banks.
1.4 Corporate strategy (IV)

- **Targeted value–oriented investments**
  We will strengthen all of our divisions in order to secure future growth. The company’s annual investment budget is used for replacing worn-out or obsolete equipment, expanding capacities and purchasing new equipment that extracts greater value from products. In addition, we will continue to press ahead with our internationalization strategy by continually evaluating acquisition opportunities.

- **Sustainability is integral part of our corporate strategy**
  Corporate management is committed to conducting business sustainably, whereby the key principle is to handle all of our resources carefully. No business is worth endangering the partnership with nature.

- **We support and foster our employees**
  Our various human resources policy measures aim to supporting the company's strategy and enable our employees to work successfully amid ever-changing conditions.
1.5 Our guiding principles

- We uphold integrity in business transactions.
- We produce high-quality, safe products.
- We treat our environment responsibly.
- We protect our information.
- We communicate fully, correctly and clearly.
- We treat our employees with fairness and respect.

Adhering to these guidelines and the rules of the code of conduct is a key component of the Südzucker’s corporate image as a trustworthy, reliable partner.

- Bee feed
3.7 Südzucker Polska

Südzucker Polska produces sugar at four factories in Cerekiew, Ropczyce, Strzelin and Świdnica. The Cukier Królewski brand has been known on the Polish market for 20 years. Its high quality has been recognized with awards from customers and also retail and industry specialists. Since 2018, Cukier Królewski has been communicating its local heritage with a “made with Polish beets from local farmers” logotype.
3.8 Südzucker Moldova

Südzucker Group established a foothold in Moldova in the mid-90s and now operates two sugar factories there.
3.9 Raffinerie Tirlemontoise

Raffinerie Tirlemontoise has been affiliated with Südzucker Group since 1989 and is market leader in Belgium.
3.10 Saint Louis Sucre

Saint Louis Sucre in France has been affiliated with Südzucker Group since 2001. The entity operates four sugar factories and three packaging plants.
AGRANA Zucker GmbH is the management company of the Austrian sugar division and also serves as a holding company for the subsidiaries in Bosnia, Bulgaria, the Czech Republic, Hungary, Romania and Slovakia.

AGRANA offers gastronomy and industrial customers a wide range of tailor-made sugar products – from conventional to organic farming.
3.12 ED&F Man Holdings Ltd.

Stake of Südzucker in British commodities trading company ED&F Man: 34.56 %

- **About ED&F Man:**
  - Founded 1783
  - 6,000 employees in 60 countries
  - Headquarters in London

- **Operations:**
  - Sugar: Trading as well as participations in production and refining capacities
  - Marketing of coffee, molasses, pulses
  - Cargo shipping
  - Financial services
3.13 Farms

Since its founding Südzucker manages its own farming operations in Germany, Poland, Moldova and Chile close to its production sites:

- Cultivation of wheat, sugar beet, maize, chicory, rapeseed, soybean and other
- Partly organic farming of the areas (e.g. organic sugar beets) and organic turkey production
- Steady enhancement of modern farming methods and transfer of knowledge into practice
3.14 Bodengesundheitsdienst, co–products

- **BGD Bodengesundheitsdienst GmbH**
  - Soil testing
  - Fertilization advice
  - Comparison of plant nutrients
  - Virus and bacteria analyses
  - Animal feed testing
  - Organic fertilizer testing

- **Co–products**
  - Marketing of co–products of sugar, starch and bioethanol production
4.1 Special products segment: Overview

**beneo**

- Specialty ingredients on a natural basis for food, feed and pharmaceuticals
- 5 production sites worldwide

**PortionPack Europe Group**

- Portion pack articles
- 6 production sites in Europe

**Freiberger**

- Deep-frozen and chilled pizza, as well as deep-frozen pasta dishes and snacks; sauces and dressings
- 11 production sites (6 in Europe, 5 in the USA)

**SÜDZUCKER**

- Starch and special starch products for use in food and non-food areas as well as bioethanol
- 5 production sites and 1 joint venture
- Maize starch, isoglucose and bioethanol plant Hungrana Kft. (50 % joint venture)

4.3 BENEKO – Connecting nutrition & health

A contribution to better nutrition

- Made from raw materials BENEKO produces and markets specialty ingredients with nutritional benefits.
- Main market segments: food, feed
- Additionally BENEKO actively supports its customers in the areas nutritional science and application technology to support the successful development of innovative ingredients.
- Sales offices in the United States, Asia, South America and Europe as well as a coordinated sales team in more than 70 countries for worldwide tailor-made customer support and a strong market position
- 5 production sites in Belgium, Chile, Germany and Italy
- About 900 employees
### 4.3.1 BENEO: Product portfolio and benefits

4.3.2 BENEKO: Application focus

BENEKO – Ingredients for high standards:
- Tasteful recipes with an optimized nutritional profile
- Applications that go hand in hand with worldwide dietary trends
4.3.3 BENEKO: Science as basis for customer success

- With expert services from R&D as well as the areas regulatory affairs and market intelligence BENEKO supports successful product launches and marketing of BENEKO’s customers.

- Focus in research are the topics nutritional science and application technology that are of central interest for food industry.

- On the basis of the research results BENEKO was able to reach several positive evaluations by the European Food Safety Authority (EFSA).

- The BENEKO Institute focuses on:
  - Weight management
  - Gut health
  - Dental health
  - Bone health
  - Physical performance
  - Controlling blood sugar
4.4 Freiberger

- One of the three largest manufacturers of frozen and chilled pizza worldwide
  - Market shares in Europe*: frozen pizza: 21.7 %, chilled pizza: 20.6 %
  - Products: Deep-frozen and chilled pizza as well as deep-frozen pasta dishes and snacks; sauces and dressings
- Production sites: Berlin, Muggensturm, Osterweddingen, Burg, Oberhofen/Austria, Westhoughton/Great Britain and another 5 in the USA – in Wisconsin, Ohio, Illinois and Iowa
- 19 production lines in Europe and 12 in the USA; daily output of up to 4.2 million products
- Specialist for private labels, supplier of many leading food retailers in Europe and North America
- Further target markets: South Africa, Korea
- Brands: Alberto, Italissimo, al Forno, Stateside, Levi Roots
- Innovations 2018/2019: Products for in-store bakeries, Focaccia

* Quantity share (piece); Sources: Nielsen and own calculations
4.5 PortionPack Europe

- Printing, packing and distribution of portion packed products
- Product range:
  - Food (sugar portions, toppings, pastries, snacks, sweets, etc.)
  - Non-food (shower gel, shampoo, refreshing towels, etc.)
- European market leader
- Major market: Gastronomy/large-scale consumer (hotels, catering, restaurants and canteens)
- 9 affiliates in 7 European countries: Austria, Belgium, Czech Republic, Germany, Great Britain, Netherlands and Spain
- Co-operation (minority share) with Collaborative Packing Solutions Ltd. (CoSo) based in South Africa
- New PPE Group member since September 2018: CustomPack Ltd., Telford, Great Britain
4.6 Starch

- 6 production sites in Austria, Germany, Hungary and Romania
- Raw materials: Potatoes, maize and wheat
- Starch and special starch products for the
  - Food and semi–luxury food industries
  - Baby food industries
  - Paper and paper converting industries
  - Textile industry
  - Construction chemicals industry
  - Pharmaceutical and cosmetic industries
- Important supplier of environmentally friendly bioethanol
- One of the leading suppliers for business to business solutions in the bio–sector
- Provider of products from special maize e.g. wax maize and GMO–free maize
- Next to bioethanol, additional production of isoglucose in Hungary
- Since 2016: wheat starch plant in Zeitz
5.1 CropEnergies segment: Overview

- The CropEnergies Group is the leading European producer of sustainably produced ethanol.

- The CropEnergies Group includes:
  - CropEnergies Bioethanol GmbH, Zeitz, Germany
  - BioWanze SA, Brussels, Belgium
  - Ryssen Alcools SAS, Loon-Plage, France
  - Ensus UK Ltd., Yarm, Great Britain
  - CT Biocarbonic, Zeitz, Germany (joint venture)

- Ethanol production 2018/19: 967 thousand m³

- Production of dried food and animal feed 2018/19: 574 thousand tonnes

- 4 production sites in Belgium, France, Germany and Great Britain with an annual production capacity of about 1.3 million m³ ethanol

- Branch offices in Chile and Brazil
## 5.2 CropEnergies segment: Figures

1) Including intangible assets.
5.3 CropEnergies Bioethanol GmbH

- One of Europe's biggest ethanol plants with an annual capacity of about 400,000 m³ ethanol, 60,000 m³ can be refined to neutral alcohol, more than 300,000 tonnes ProtiGrain® (protein animal feed) as well as 100,000 tonnes liquefied CO₂

- Renewable ethanol: mainly as additive to petrol in the form of E5 and E10

- High quality neutral alcohol e. g. for beverage, cosmetics and pharmaceutical industries

- ProtiGrain®: high protein animal feed distributed all over Europe

- Purification and liquefaction of CO₂ from fermentation, among others for the food sector

- Flexibility in processing raw materials (cereals and sugar syrup)
5.4 BioWanze SA

- Since December 2008 BioWanze operates a plant in Wanze, Belgium producing ethanol, gluten and ProtiWanze® (liquid protein animal feed)

- Innovative production process: on average about 70 % CO₂ will be saved through the use of biomass as primary energy source instead of fossil fuel

- Raw materials: wheat and sugar syrup

- Annual capacity:
  - 300,000 m³ ethanol
  - more than 400,000 tonnes ProtiWanze®
  - up to 60,000 tonnes gluten
5.5 Ryssen Alcools SAS

- Production site in Loon-Plage, France
- Part of the CropEnergies Group since June 2008
- Annual capacity:
  - more than 100,000 m³ ethanol for fuel applications
  - up to 90,000 m³ ethanol for traditional and technical applications
- Ryssen Alcools SAS specializes in flexible customer fulfilment in view of product specifications and delivery quantity.
- Customers: fuel industry, beverage, cosmetic, pharmaceutical and chemical industries
5.6 Ensus UK Ltd.

- One of the largest ethanol plants in Europe in Wilton, Great Britain
- Since July 2013 member of CropEnergies Group
- Production of ethanol and high-quality protein animal feed (DDGS)
- Annual capacity:
  - 400,000 m³ ethanol
  - 350,000 tonnes DDGS
- Delivers carbon dioxide to a liquefaction plant which processes it for use in the food and beverage industry; annual capacity: 250,000 tonnes liquefied biogenic CO₂
5.7 CT Biocarbonic

- Joint venture to liquefy the CO₂ generated at the ethanol facility in Zeitz
  - Partner: SOL Group
  - Largest biogenic CO₂ liquefaction plant in Germany

- CO₂ marketed for use in the beverage industry, in the food industry as a cooling and freezing agent and to produce dry ice used for cleaning

- Production capacity: 100,000 tonnes of liquefied CO₂/annum

- Startup: end of 2010

- Shares the existing ethanol plant's infrastructure, such as water/wastewater, energy, CO₂
6.1 Fruit segment: Overview

- Segment with a global reach and 43 production facilities
- Global market leader in fruit preparations (AGRANA Fruit)
- Most significant producer of fruit juice concentrates in Europe (AUSTRIA JUICE)
- Refining agricultural raw materials to high-value intermediate products for the food industry, above all for the drinks, dairy, pastries and ice cream industry
- Market presence on all five continents
## 6.2 Fruit segment: Figures

\(^1\) Including intangible assets.
6.3 Fruit preparations (AGRANA Fruit)

- Global market leader in fruit preparations
- 28 production sites worldwide
- Bundling all business activities into AGRANA Fruit S.A.S., Mitry–Mory, France
- Production plants next door to industrial customers to ensure freshness and high quality
- Center of innovation and product development for fruit preparations at Tulln, Austria
- R&D works closely with customers when designing and producing fruit preparations (especially international corporations in the dairy, ice cream and baked goods industries)
6.4 Fruit juice concentrates (AUSTRIA JUICE)

- Production and marketing of high-value apple juice and berry juice concentrates, flavours, fruit wine, direct juices, purees and beverage bases
- 15 production locations worldwide
- Bundling all business activities into AUSTRIA JUICE GmbH, headquartered in Kröllendorf, Austria
7. Research and development (I)

Main focus:
- Development of new products and product variants
- Application technology in the food and non-food areas
- Optimization of the production processes
- Testing new process technologies
- Support for sales and production activities
7. Research and development (II)

- Assignments:
  - Sugar technology and sugar specialities, functional food ingredients (Isomalt, Palatinose™, rice derivatives, inulin, oligofructose, proteins), pharmaceutical additives, starch and starch derivatives, fruit preparations, fruit juice concentrates, bioethanol, bio-based chemicals

- Expenditure for R&D in 2018/19: € 44.9 million

- 456 employees worldwide
8.1 Sustainability: Rooted in our corporate culture

- Südzucker has a strong association with agriculture and thus also with nature, since its founding in the nineteenth century.

- Refining agricultural raw materials (e.g. sugar beets, grain, maize, chicory, fruits) to produce high-quality products is central to our business model.

- These raw materials must be available at all times if the medium to long-term business foundation of the company is to be sustained.

- Sustainability is also one of our customers' corporate values and increasingly influences consumers' buying decisions.

- The principle of sustainability traditionally is a deeply rooted component of corporate strategy.
8.2 Sustainability: Our strategy

- Our business conduct along the entire value chain, from agricultural raw materials to finished products, is guided by sustainability.
- Südzucker pays special attention to the following aspects, which apply in all segments:
  - Fully utilizing agricultural materials to the greatest extent possible
  - Continuously enhancing production processes to conserve resources and boost energy efficiency
  - Effective quality, environment and energy management systems
  - Respect the interests of all major Südzucker stakeholders
  - Establish long-term partnerships, e.g. with raw material suppliers and customers
8.3 Sustainability: Our core business activities (I)

**Agricultural raw materials procurement**

- Agricultural raw materials mainly come from European fields
- Environmentally sound farming:
  - Expanded crop rotation
  - Intercropping
  - Legume cultivation
  - Flower strip planting and establishing riparian strips
- Groupwide agricultural research
- Science-based assistance and consultation for all agricultural raw materials
- Promoting biodiversity
8.3 Sustainability: Our core business activities (II)

Environmental and energy aspects of production

- Adhering to environmental and energy policies that reduce resource consumption and the environmental impact of the company’s business activities
- Constant improvement of the efficiency of production processes; use of modern energy management systems, e.g. co-generation systems
- Water is utilized and disposed of at all sites in a sustainable manner: E.g. beets consist of about 75% water. This water is used both to wash the sugar beets and to extract the sugar from the pellets.
- Raw materials used are almost entirely converted to high-quality products: food and animal feed, raw materials for the fermentation industry and fertilizers
- Minimal waste
- Beets: Reducing soil adhesion
8.3 Sustainability: Our core business activities (III)

Social responsibility

- **Product responsibility and quality**
  - Quality management systems guarantee the safety and quality of the products, from the development phase through procurement, production and transport to delivery to the customer.

- **Ecological sustainability**
  - Efficient energy use
  - Reducing emissions
  - Sustainable use of water
  - Minimal waste
  - Efficient logistics associated with procurement and distribution
8.3 Sustainability: Our core business activities (IV)

- **Economic sustainability**
  - Growth and job-related impact of Südzucker Group's production plants in rural areas: higher than average

- **Social sustainability**
  - Multifaceted social commitment
  - Dialogue at municipal level
  - Responsible dialogue with politicians and institutions
  - Participation in the EcoVadis sustainability evaluation system

- **Working conditions and human rights**
  - Code of conduct: conducting business ethically, legally and responsibly
SUGAR MARKET
